Mineral Makeup Collection

A completely pure all natural, micronized based makeup, that is an extension of good skin care.

No additives, oils, perfumes, talc, alcohols, dyes or chemicals.

The minerals are naturally anti-inflammatory and act as an antiseptic on the skin. The minerals form a protective barrier from environmental pollutants.

Recommended by dermatologists, estheticians and plastic surgeons, the minerals are non-comedogenic and form a natural barrier with a chemical-free broad spectrum sun protection. Light reflective minerals minimize appearance of fine lines, water resistant, oil free and ideal for rosacea and acne prone skin. It feels weightless and has an extremely low risk.

Minerals offer the most advanced effective makeup available and it is good for your skin
